DETAILED ACTION

Election/Restrictions

Claims 36-66 (method claims) are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention. This application contains claims 36-66 drawn to an invention nonelected with traverse in Paper No. 3/17/2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 30-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang-6,379,379.

Wang-'379 (Fig. 1; col. 4, lines 5-31; line 65, col. 4 to line 16, col. 5) discloses coating of various materials at various locations of a stent with locations having no coating as one desires. Wang-'379 inherently discloses no coating at side surfaces 24, 25 and 27 of the stent as recited in the claims.

Claim Objections

Art Unit: 3731

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Claims 35-66 have been misnumbered as 34-65. Correction is required.

Response to Arguments

Applicant's arguments with respect to claims 30-35 have been considered but are moot in view of the above new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
